

IT Tech Camps

Spring 2023 | In-person events

You're invited to attend an in-person Apple Tech Camp focused on deploying Apple devices. These events are designed to help teams with testing the latest beta software releases. After attending one of these sessions, your team will be ready to begin testing the latest beta software from Apple after WWDC23.

Events are held at multiple locations across the U.S., so it's easy for your team to attend. Attendees should bring both production and test devices. Test devices should have the latest beta software installed and be enrolled in Apple Business Manager or Apple School Manager.

Participants will benefit by:

- Learning more about the AppleSeed for IT program, Mac Evaluation Utility (MEU), and Feedback Assistant
- Testing and providing feedback on Apple's latest beta software releases
- Receiving guidance from Apple on Apple IT fundamentals
- Discovering best practices that can help improve existing IT workflows
- Navigating the AppleSeed for IT portal, including Test Plans, What's New, Release Notes, and Software
- Finding out about tips and tricks for filing feedback
- Connecting with Apple systems engineers and fellow AppleSeed for IT attendees
