

Ignite Learning with Education Apps

You're invited.

Join Apple Education and leading education solution providers for a day of hands-on learning. The event will focus on how iPad and powerful education apps can expand what's possible for learning, create new opportunities for teaching, and establish dynamic environments that inspire both.

You'll have an opportunity to experience powerful education apps that streamline district workflow, transform literacy, help teachers individualize reading, transform digital instruction and classroom workflow, and inspire students to publish and share their work

Here's what you'll experience:

- Learn how Canvas LMS mobile apps provide educators and students with anytime access to digital tools, resources, and curriculum, including Apple's App Development with Swift curriculum.
- Explore how Lexia Core5 Reading and PowerUp Literacy adaptive curriculum solutions offer supporting analytics to help educators differentiate learning for students at varying levels of proficiency.
- Learn how Nearpod transforms digital learning through an interactive platform that improves classroom workflow, offers access to a large digital content library, and provides tools for formative assessment.
- Join Seesaw for an overview of their digital portfolio app, which enables students to demonstrate and share learning and gives teachers and families insight into student progress.

Don't miss this opportunity to see how iPad and engaging educational apps are creating new possibilities for teaching and learning.

Who should attend

Superintendents, assistant superintendents, curriculum directors and leaders, principals, IT leaders, CTOs, CIOs, technology directors and integrators, and other school leaders

Details

Thursday, September 12, 2019
8:30 a.m. - 4:15 p.m.
mindSpark Learning Center
455 S. Pierce Street
Lakewood, CO 80226

Agenda

- Raising the bar for learning with technology
- Education apps hands-on experience
- A path forward and reflection
